You may apply to enrol in more than one course in each series (subject to numbers). If you wish to do so, you must indicate your choice preference on the application form, and include payment of the appropriate fee(s).

All applications must be received by noon on Wednesday, 8 August 2007, and you may expect to receive a response to your application on or about 17 August.

Any questions about courses after 17 August should be made to the Secretary, U3A Dunedin, telephone 471 9913 or on email at <graysinn@clear.net.nz>

SUSTAINABILITY

Sustainability – more than just growing your own lettuces. Is it the key to survival of the planet, or us? Is it too late, or not? What should be done?

The Lecture Programme

6 September

Sustainability: What is it and why bother?

What is sustainability?
The common property resource issue
Why is sustainability a hard sell?

Presenter Colin Smithies, Department of Economics

13 September

The economics of sustainability

The Kyoto protocol! Who should pay?
The real story about food miles
What is the best ECO improvement for you?

Presenter: Colin Smithies, Department of Economics

20 September

The solar revolution: more than just hot water

All you ever wanted to know about energy efficiency
but were too scared to ask

Presenter: Tim Bishop, Department of Physics

27 September

Fossil fuels: will they run out?

Should we worry, or do we run for the nearest cliff?

Presenter: Associate Professor Bob Lloyd, Department of Physics

4 October

The sustainable city

Can we live within our means?
Do we really need all we want?

Presenter: Associate Professor Claire Freeman, Department of Geography

11 October

**The nuclear age: New Zealand and nuclear power
It is the answer, but is it the best?**

Presenter: Associate Professor Bob Lloyd, Department of Physics
